

SAKO SPECIFICATION SAKO

SAKO 75 SYNTHETIC STAINLESS

SAKO 75 SYNTHETIC STAINLESS has a series of actions which are designated: Medium actions III and SM, Long actions IV and V (Magnum). All metal parts are made of stainless steel or are specially coated to ensure excellent wear and corrosion resistance in different weather conditions.

The ACTIONS continue to offer traditional SAKO features such as: action sizes matched to cartridges; mechanical ejection; integral tapered scope mount rail and one-piece forged bolt.

Bolts are optionally available provided with KEY CONCEPT locking system to prevent illicit use.

The MAGAZINE is detachable and it can also be loaded through the ejection port. All models are also available with a fixed magazine with hinged floorplate as option. Rem Ultra Mag calibers however are available with hinged floorplate only.

The single-stage TRIGGER pull is adjustable from 1 kg to 2 kg (2 to 4 lbs). All models are available with a single-set trigger as option.

The SAFETY features a mechanism that allows loading and unloading of the rifle with safety engaged.

The STOCK is made by injection molding in two steps so that the grip areas in the pistol grip and fore-end are made of a softer material.

Sako 75 Synthetic Stainless is supplied WITHOUT OPEN SIGHTS. Integral rails for the scope mounts are on the top of the receiver.

The totally free-floating, stainless steel BARREL is cold-hammerforged.

TECHNICAL DATA

Action	caliber	rate of twist	Overall length	
III	22-250 Rem	14"	III	1090 mm (42 7/8")
	243 Win	10"	SM	1140 mm (44 7/8")
	260 Rem	9"	IV	1110 mm (43 3/4")
	7mm-08 Rem	9.5"	V	1160 mm (45 5/8")
	308 Win	11"		
SM	270 Win Short Mag	10"	Barrel length	
	300 Win Short Mag	11"	III	570 mm (22 7/16")
IV	25-06 Rem	10"	IV	580 mm (22 7/8")
	6.5x55 SE	8"	V / SM	620 mm (24 3/8")
	270 Win	10"	Weight	
	30-06 Sprg	11"	III	3.0 kg (6 5/8 lbs)
	9.3x62	14"	SM	3.1 kg (6 7/8 lbs)
