- LIGHTWEIGHT DESIGN
- WATERPROOF & FOGPROOF

PREDATOR 10X42 LRF

Decades of range-finding binocular experience packed into an innovative hunting bino.

- **Innovative design and ergonomics:** Predator LRF design has no visible electronics; no bumps, no external battery compartment.
- **Best in class display brightness**
- **Integrated inclinometer**
- **Different modes:** standard, short distance, long distance and rain mode
- **Optics clarity, the high light transmission, and the ruggedness** you expect from any Steiner product

ITEM NO. 2057 UPC 840229105649

PREDATOR 10X42

The higher 10x magnification reveals greater detail at long-distance, making it ideal for hunting open-country and field edges.

ITEM NO. 2059 UPC 840229105663

PREDATOR 8X42

The 8x magnification offers a huge field of view and a bright, high definition image. These are ideal for finding and follow game through dense timber, especially in low light situations.

ITEM NO. 2058 UPC 840229105656

Predator Diamond Coating

High Definition optics meet Predator Diamond Coating – the secret Steiner technology generates superior light transmission, high contrast and high definition imaging.

Fast-Close-Focus™

Central focusing wheel requires minimal rotation for quick absolute sharpness from close-up to infinity.

Laser Texture

Laser texture provide a good grip for these compact and lightweight models making them ideal for hunting or any outdoor excursion.

The Steiner Heritage Warranty means we stand behind our products. Over half a century of building rugged and reliable product for armed forces around the world gives us this confidence.

We will repair or replace your product at no charge to you. It covers all riflescopes and binoculars sold in the US and Canada for the life of the product.

See full warranty details at www.steineroptics.com/product-warranties

- No warranty card needed.
- No receipt required.
- Warranty is fully transferable to future owners of the product.
- Electronic components are covered by a 3-year warranty.

The LRF Distinction

Predator LRF electronics components are completely integrated into the binocular housing providing an optimal grip without bumps or protrusions getting in the way. Always achieve the most accurate results through standard, rain, long-distance, or short-distance modes, and quickly learn a landscape through continuous scan mode. Range in either meters or yards for a bino suitable for use on any continent.
